

Curriculum intent

At Colton Primary School, it is our intent to provide a high-quality maths education for all pupils, by teaching them the essential knowledge to develop an understanding of the world and to create a natural curiosity and love for maths. Throughout the school, the children engage in daily maths sessions to advance their learning. Maths at Colton Primary School is an enjoyable and rewarding experience for pupils and is designed to engage all learners. Lessons are planned and developed to equip the pupils with the necessary tools to become *real* mathematicians. Children are encouraged to consider and use different strategies and to learn from their independent mistakes. The school creates opportunities for both independent and collaborative work during lessons; through trying different strategies and approaches, they develop the skills of perseverance and resilience, as well as recognising the importance of working as a team.

As stated in the National Curriculum, all children must be able to access fluency, reasoning and problem-solving during lessons. It is therefore essential that we as teachers provide the support needed for every child to reason mathematically and this is often evidenced during their problem-solving activities.

At Colton Primary School, we use the White Rose Maths hub as a basis for our maths planning, which supports Teaching for Mastery. A mathematical concept or skill has been mastered when a pupil can represent it in multiple ways, has the mathematical vocabulary to communicate related ideas, and can independently apply the concept to new problems in unfamiliar situations.

Mastery is a journey and long-term goal, achieved through exploration, clarification, practise and application over time. At each stage of learning, pupils should be able to demonstrate a deep, conceptual understanding of the topic and be able to build on this over time.

Progression of Knowledge in Maths Colton Primary School 2022

| Strand | EYFS | Y1 | Y2 | Y3 | ¥4 | ¥5 | Y6 |
|--------------------------------|---|---|--|---|---|---|---|
| <u>Place Value</u> Counting | Count up to three or four objects by saying a number name for each item Count actions or objects which cannot be moved Count objects to 10 and begin to count beyond 10 Count out up to six objects from a larger group Count an irregular arrangement of up to ten objects ELG - count reliably with numbers from one to 20 | Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number | | | Count backwards through zero to include negative numbers | Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero | Use negative numbers in context, and calculate intervals across zero |
| Counting | | Count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens | Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward | Count from 0 in multiples of 4, 8, 50 and 100 | Count in multiples of 6, 7, 9, 25 and 1000 | Count forwards or backwards in steps of powers of 10 for any given number up to 1000000 | |
| Counting | | Given a number, identify one more and one less | | Find 10 or 100 more or less than a given number | Find 1000 more or less than a given number | | |

| Comparing Numbers | Use the language of 'more' and 'fewer' to compare two sets of objects ELG - with numbers from one to 20, place them in order ELG - with numbers from 1 to 20 say which number is one more or less than | Use the language of: equal to, more than, less than (fewer), most, least | Compare and order numbers from 0 up to 100; use <, > and = signs | Compare and order numbers up to 1000 | Order and compare numbers beyond 1000 | Read, write, order and compare numbers to at least 1000000 and determine the value of each digit (appears also in Reading and Writing Numbers) | Read, write, order and compare numbers up to 10000000 and determine the value of each digit (appears also in Reading and Writing Numbers) |
|---|--|--|---|--|--|--|---|
| Identifying, Representing and Estimating Numbers | a given number " Select the correct numeral to represent 1 to 5, then 1 to 10 objects Estimate how many objects they can see and check by counting them | Identify and represent numbers using objects and pictorial representations including the number line | Identify, represent and estimate numbers using different representations, including the number line | Identify, represent and estimate numbers using different representations | Identify, represent and estimate numbers using different representations | | |
| Reading and Writing Numbers | Recognise some numerals of personal significance Recognise numerals 1 to 5 | Read and write numbers from 1 to 20 in numerals and words | Read and write numbers to at least 100 in numerals and in words | Read and write numbers up to 1000 in numerals and in words | | Read, write, order and compare numbers to at least 1000000 and determine the value of each digit (appears also in Comparing Numbers) | Read, write, order and compare numbers up to 10000000 and determine the value of each digit (appears also in Understanding Place Value) |
| Understanding Place Value | | | Recognise the place value of each digit in a two-digit number (tens, ones) | Recognise the place value of each digit in a three-digit number (hundreds, tens, ones) | Recognise the place value of each digit in a four-digit number (thousands, | Read, write, order and compare numbers to at least 1000000 and | Read, write, order and compare numbers up to 10000000 and |

| | | | | | hundreds, tens, and ones) | determine the value of each digit | determine the value of each digit |
|--|--|--|---|--|---|---|--|
| Rounding | | | | | Round any number to the nearest 10, 100 or 1000 | Round any number up to 1000000 to the nearest 10, 100, 1000, 10000 and 100000 | Round any whole number to a required degree of accuracy |
| Problem Solving | | | Use place value and number facts to solve problems | Solve number problems and practical problems involving these ideas | Solve number and practical problems that involve all of the above and with increasingly large positive numbers | Solve number problems and practical problems that involve all of the above | Solve number and practical problems that involve all of the above |
| <u>Number -</u> <u>Addition and</u> <u>Subtraction</u> Number Bonds | | Represent and use number bonds and related subtraction facts within 20 | Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 | | | | |
| Mental Calculation | Find the total number of items in two groups by counting all of them In practical activities and discussion, begin to use the vocabulary involved in adding and subtracting Record, using marks that they can interpret and explain ELG - using quantities and objects, they add and subtract two | Add and subtract one-digit and two- digit numbers to 20, including zero | Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: - a two-digit number and ones - a two-digit number and tens - two two-digit numbers - adding three one- digit numbers | Add and subtract numbers mentally, including: - a three-digit number and ones - a three-digit number and tens - a three-digit number and hundreds | | Add and subtract numbers mentally with increasingly large numbers | Perform mental calculations, including with mixed operations and large numbers |

| | single-digit numbers and count on or back to find the answer | | | | | | |
|---|--|--|---|--|---|---|--|
| Mental Calculation | | Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods) | Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot | | | | Use their knowledge of the order of operations to carry out calculations involving the four operations |
| Written Methods | | Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs | | Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) | |
| Inverse Operations and Estimating | | | Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems | Estimate the answer to a calculation and use inverse operations to check answers | Estimate and use inverse operations to check answers to a calculation | Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy | Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy |
| Problem Solving | Begin to identify their own mathematical problems based on own interests and fascinations | Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing | Solve problems with addition and subtraction: - using concrete objects and pictorial representations, including those involving numbers, quantities and measures | Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction | Solve addition and subtraction two- step problems in contexts, deciding which operations and methods to use and why | Solve addition and subtraction multi- step problems in contexts, deciding which operations and methods to use and why | Solve addition and subtraction multi- step problems in contexts, deciding which operations and methods to use and why |

| | number problems such as 7 = ? - 9 | - applying their increasing knowledge of mental and written methods | | | | |
|--|--------------------------------------|---|---|---|--|--|
| Number- Multiplication, Division and Ratio Multiplication and Division Facts | | Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers | Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables | Recall multiplication and division facts for multiplication tables up to 12x12 | | |
| Mental Calculation | | | Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two- digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods) | Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers | Multiply and divide numbers mentally drawing upon known facts | Perform mental calculations, including with mixed operations and large numbers |
| Mental Calculation | | Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot | | Recognise and use factor pairs and commutativity in mental calculations Multiply and divide whole numbers and those involving | | |

| | | | | decimals by 10, 100 and 1000 | | |
|---|--|---|--|---|--|--|
| Written Calculations | | Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) signs | Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two- digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods) | Multiply two-digit and three-digit numbers by a one- digit number using formal written layout | Multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers Divide numbers up to 4 digits by a one- digit number using the formal written method of short division and interpret remainders appropriately for the context | Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication Divide numbers up to 4 digits by a two- digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders fractions, or by rounding, as appropriate for the context |
| Properties of Numbers: Multiples, Factors, Primes, Square | | | | Recognise and use factor pairs and commutativity in mental calculations (appears also in Mental Calculation) | Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers | Identify common factors, common multiples and prime numbers |

| and Cubed Numbers | | | | | | Know and use the vocabulary of prime numbers, prime factors and composite (non- prime) numbers Establish whether a number up to 100 is prime and recall prime numbers up to 19 Recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³) | |
|---|--|---|--|--|---|--|--|
| Order of Operations | | | | | | | Use their knowledge of the order of operations to carry out calculations involving the four operations |
| Inverse Operations, Estimating and Checking Answers | | | Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems | Estimate the answer to a calculation and use inverse operations to check answers | Estimate and use inverse operations to check answers to a calculation | Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy | Use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy |
| Problem Solving | ELG - they solve problems, including doubling, halving and sharing | Solve one-step problems involving multiplication and division, by calculating the answer using | Solve problems involving multiplication and division, using materials, arrays, repeated addition, | Solve problems, including missing number problems, involving multiplication and division, including | Solve problems involving multiplying and adding, including using the distributive law to | Solve problems involving multiplication and division including using their knowledge of | Solve problems involving addition, subtraction, multiplication and division |

| | concrete objects, pictorial representations and arrays with the support of the teacher | mental methods, and multiplication and division facts, including problems in contexts | positive integer scaling problems and correspondence problems in which n objects are connected to m objects | multiply two-digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects | factors and multiples, squares and cubes | |
|---|--|---|--|--|--|--|
| Number – Fractions, Decimals and Percentages Counting in Fractional Steps | | | Count up and down in tenths | Count up and down in hundredths | | |
| Recognising Fractions | Recognise, find and name a half as one of two equal parts of an object, shape or quantity Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity | Recognise, find, name and write fractions ¼, ¼, ²/₄ and ¾ of a length, shape, set of objects or quantity | Recognise, find and write fractions of a discrete set of objects: unit fractions and non- unit fractions with small denominators Recognise that tenths arise from dividing an object into 10 equal parts and in dividing one- digit numbers or quantities by 10 Recognise and use fractions as numbers: unit | Recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten | Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence) | |

| | | | fractions and non- unit fractions with small denominators | | | |
|---|--|---|--|--|---|---|
| Comparing Fractions | | | Compare and order unit fractions, and fractions with the same denominators | | Compare and order fractions whose denominators are all multiples of the same number | Compare and order fractions, including fractions >1 |
| Comparing Decimals | | | | Compare numbers with the same number of decimal places up to two decimal places | Read, write, order and compare numbers with up to three decimal places | Identify the value of each digit in numbers given to three decimal places |
| Rounding including Decimals | | | | Round decimals with one decimal place to the nearest whole number | Round decimals with two decimal places to the nearest whole number and to one decimal place | Solve problems which require answers to be rounded to specified degrees of accuracy |
| Equivalence including Fractions, Decimals and Percentages | | Write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$ | Recognise and show, using diagrams, equivalent fractions with small denominators | Recognise and show, using diagrams, families of common equivalent fractions Recognise and write decimal equivalents of any number of tenths or hundredths Recognise and write decimal equivalents to ¼; ½; ¾ | Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths Read and write decimal numbers as fractions (e.g. 0.71 = ⁷¹ / ₁₀₀) Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents | Use common factors to simplify fractions; use common multiples to express fractions in the same denomination Associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. 3/2) Recall and use equivalences between simple fractions, decimals and percentages, |

| | | | | | Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal | including in different contexts |
|--|--|---|--|--|--|---|
| Addition and Subtraction of Fractions | | | Add and subtract fractions with the same denominator within one whole (e.g. 5/7 + 1/7 = 6/7) | Add and subtract fractions with the same denominator | Add and subtract fractions with the same denominator and denominators that are multiples of the same number Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. 2/5 + 4/5 = 6/5 = 1 1/5) | Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions |
| Multiplication and Division of Fractions | | Write simple fractions e.g. 1/2 of 6 = 3 and recognise the equivalence of 2/4 and 1/2 | | | Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams | Multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $1/4 \times 1/2 = 1/8$); multiply one-digit numbers with up to two decimal places by whole numbers |

| | | | | | Divide proper fractions by whole numbers (e.g. 1/3 ÷ 2 = 1/6) |
|---|--|--|---|--|---|
| Multiplication and Division of Decimals | | Find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths | | | Multiply one-digit numbers with up to two decimal places by whole numbers Identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places Use written division methods in cases where the answer has up to two decimal places |
| Problem Solving | | Solve problems that involve all of the above | Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number | Solve problems involving numbers up to three decimal places | Solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison |
| <u>Algebra –</u> Equations | | | | | Express missing number problems algebraically Find pairs of numbers that satisfy |

| Formulae | | | | | | | number sentences involving two unknowns Enumerate all possibilities of combinations of two variables Use simple formulae |
|--|--|---|--|---|---|---|---|
| Sequences | | | | | | | Generate and describe linear number sequences |
| Measurement – Comparing and Estimating | Order two or three items by length or height Order two items by weight or capacity | Compare, describe and solve practical problems for: - lengths & heights [e.g. long/short, longer/shorter, tall/short, double/half] - mass/weight [e.g. heavy/light, heavier than, lighter than] - capacity & volume [e.g. full/empty, more than, less than, half, half full, quarter] - time [e.g. quicker, slower, earlier, later] | Compare and order lengths, mass, volume/capacity and record the results using >, < and = | | Estimate, compare and calculate different measures, including money in pounds and pence (appears also in Measuring) | Calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and square metres (m ²) and estimate the area of irregular shapes (appears also in Measuring) Estimate volume (e.g. using 1cm ³ blocks to build cubes and cuboids) and capacity (e.g. using water) | Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm ³) and cubic metres (m ³), and extending to other units such as mm ³ and km ³ |
| Comparing and Estimating | Order and sequence familiar events Measure short periods of time in simple ways ELG - children use | Sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, | Compare and sequence intervals of time | Compare durations of events, for example to calculate the time taken by particular events or tasks | | | |

| | everyday language to talk about time | morning, afternoon and evening] | | Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time) | | | |
|------------------------------|---|--|--|---|---|---|---|
| Measuring and Calculating | | Measure and begin to record the following: - lengths and heights - mass/weight - capacity and volume - time (hours, minutes, seconds) | Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels | Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml) | Estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing) | Use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling | Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting) |
| Measuring and Calculating | | | | Measure the perimeter of simple 2D shapes | Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres | Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres | Recognise that shapes with the same areas can have different perimeters and vice versa |
| Measuring and Calculating | | Recognise and know the value of different | Find different combinations of coins that equal the | Add and subtract amounts of money to give change, using | | | |

| | denominations of | same amounts of | both £ and p in | | | |
|------------------------------|------------------|--|--------------------|---|--|--|
| | coins and notes | money | practical contexts | | | |
| Measuring and Calculating | | Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular | | | | |
| | | value Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change | | | | |
| Measuring and Calculating | | | | Find the area of rectilinear shapes by counting squares | Calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and square metres (m ²) and estimate the area of irregular shapes | Calculate the area of parallelograms and triangles Calculate the area of parallelograms and triangles; calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm ³) and cubic metres (m ³), and extending to other units [e.g. mm ³ and km ³]. |
| | | | | | | Recognise when it is possible to use formulae for area |

| | | | | | | and volume of shapes |
|---------------------|--|--|--|---|---|--|
| Telling the Time | Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times | Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times | Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12- hour and 24-hour clocks | Read, write and convert time between analogue and digital 12- and 24-hour clocks | | |
| Telling the Time | Recognise and use language relating to dates, including days of the week, weeks, months and years | Know the number of minutes in an hour and the number of hours in a day | Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight | | | |
| Telling the Time | | | | Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days | Solve problems involving converting between units of time | |
| Converting | | Know the number of minutes in an hour and the number of hours in a day | Know the number of seconds in a minute and the number of days in each month, year and leap year | Convert between different units of measure (e.g. kilometre to metre; hour to minute) | Convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre) | Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal |

| | | | | | notation to up to three decimal places |
|--|--|--|---|--|---|
| | | | Read, write and convert time between analogue and digital 12- and 24-hour clocks | Solve problems involving converting between units of time | Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate |
| | | | Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days | Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints | Convert between miles and kilometres |
| | Interpret and construct simple pictograms, tally charts, block diagrams and simple tables Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity Ask and answer questions about totalling and comparing | Interpret and present data using bar charts, pictograms and tables | Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs | Complete, read and interpret information in tables, including timetables | Interpret and construct pie charts and line graphs and use these to solve problems |
| | | construct simple pictograms, tally charts, block diagrams and simple tables Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity Ask and answer questions about totalling and | construct simple pictograms, tally charts, block diagrams and simple tablespresent data using bar charts, pictograms and tablesAsk and answer simple questions by counting the number of objects in each category and sorting the categories by quantityPresent data using bar charts, pictograms and tablesAsk and answer questions about totalling andPresent data using bar charts, pictograms and tables | Image: Convert time between analogue and digital 12- and 24-hour clocksImage: Convert time between analogue involving converting from hours to minutes; minutes to seconds; years to months; weeks to daysImage: Convert time between analogue involving converting pictograms, tally charts, block diagrams and simple tablesImage: Convert time between analogue pictograms, tally counting the number of objects in each category and sorting the categories by quantityAsk and answer questions about totalling and | convert time between analogue and digita 12- and 24-hour clocksinvolving converting between units of timeImage: Solve problems involving converting proximate equivalencesUnderstand and use approximate equivalences to any proximate equivalences to any proximate erad and proximate erad any proximate erad any proximate erad any proximate erad any proximate |

| Problem Solving | | | | Solve one-step and two-step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables | Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | Solve comparison, sum and difference problems using information presented in a line graph | Calculate and interpret the mean as an average |
|---|---|--|--|---|---|--|---|
| <u>Geometry –</u> Identifying Shapes and their Properties | Use familiar objects and common shapes to create and recreate patterns ELG - They recognise, create and describe patterns | Recognise and name common 2D and 3D shapes, including: - 2D shapes [e.g. rectangles (including squares), circles and triangles] - 3D shapes [e.g. cuboids (including cubes), pyramids and spheres] | Identify and describe the properties of 2D shapes, including the number of sides and line symmetry in a vertical line | | Identify lines of symmetry in 2D shapes presented in different orientations | Identify 3D shapes, including cubes and other cuboids, from 2D representations | Recognise, describe and build simple 3D shapes, including making nets |
| Identifying Shapes and their Properties | Begin to use mathematical names for "solid" 3D shapes and "flat" 2D shapes, and mathematical terms to describe shapes | | Identify and describe the properties of 3D shapes, including the number of edges, vertices and faces | | | | Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius. |
| Identifying Shapes and their Properties | ELG - They explore characteristics of everyday objects and shapes and use mathematical language to describe them | | Identify 2D shapes on the surface of 3D shapes, [for example, a circle on a cylinder and a triangle on a pyramid] | | | | |

| Drawing and Constructing | Use familiar objects and common shapes to create and recreate patterns and build models | | Draw 2D shapes and make 3D shapes using modelling materials; recognise 3D shapes in different orientations and describe them | Complete a simple symmetric figure with respect to a specific line of symmetry | Draw given angles, and measure them in degrees (°) | Draw 2D shapes using given dimensions and angles Recognise, describe and build simple 3D shapes, including making nets (appears also in Identifying Shapes and Their Properties) |
|------------------------------|--|--|--|--|--|---|
| Comparing and Classifying | Begin to use mathematical names for 'solid' 3D shapes and 'flat' 2D shapes, and mathematical terms to describe shapes | Compare and sort common 2D and 3D shapes and everyday objects | | Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes | Distinguish between regular and irregular polygons based on reasoning about equal sides and angles | Compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons |
| Angles | Describe their relative position such as 'behind' or 'next to' | | Recognise angles as a property of shape or a description of a turn | | Know angles are measured in degrees; estimate and compare acute, obtuse and reflex angles | |
| Angles | | | Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle | Identify acute and obtuse angles and compare and order angles up to two right angles by size | Identify: - angles at a point and one whole turn (total 360°) - angles at a point on a straight line and ½ a turn (total 180°) - other multiples of 90° | Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles |

| Angles | | | Identify horizontal and vertical lines and pairs of perpendicular and parallel lines | | Use the properties of rectangles to deduce related facts and find missing lengths and angles | |
|--|--|---|--|--|--|--|
| Position, Direction and Movement | Describe position, direction and movement, including half, quarter and three- quarter turns | Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise) | | Describe movements between positions as translations of a given unit to the left/right and up/down | | |
| Position, Direction and Movement | | | | Describe positions on a 2D grid as coordinates in the first quadrant | Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed | Describe positions on the full coordinate grid (all four quadrants) |
| Position, Direction and Movement | | | | Plot specified points and draw sides to complete a given polygon | | Draw and translate simple shapes on the coordinate plane, and reflect them in the axes |
| Pattern | | Order and arrange combinations of mathematical | | | | |

| | objects in patterns | | |
|--|---------------------|--|--|
| | and sequences | | |

Key vocabulary

| Number and Place | Addition and | Multiplication and | Measure | Geometry – Positio | n Geometry – | Fractions | Problem Solving |
|------------------|--------------------|-----------------------|------------------------|--------------------|------------------------------------|----------------------|-----------------------|
| Value | Subtraction | Division | | and Direction | Properties of Shapes | | |
| Number | One more, one less | Double, half, | Now, before, soon, | On, next to, over, | Shape, circle, | Half, halve, halving | Repeat, what comes |
| | | halving, pairs, twice | later, after, next, | under, around, | triangle, rectangle, | | next? Carry on, |
| Zero | Altogether | as many | fastest, time | through | square, side, straight, curved, | | continue |
| Numbers up to 20 | How many are left? | Share | Yesterday, today, | | cylinder, cube, | | Find, choose, |
| - | | | tomorrow, day, | | cuboid, cone, | | collect, use, make, |
| Count, forwards, | Same, different, | Equal, unequal | week, weekend, | | sphere, pyramid, | | build |
| backwards | number bond | | month, year | | face | | |
| | | Group | | | | | Tell me, describe, |
| How many, more, | Part-whole | | Days of the week, | | Same, different | | pick out, talk about, |
