

At Colton, we believe that Science should leave a footprint in your child's life. We understand the importance that Science holds for our future. It is our passion to foster active, knowledgeable and inquisitive scientists by offering an exciting, inclusive and inspiring curriculum.

We ignite our natural curiosity and enthusiasm in the world around us.

We have a range of opportunities to question, explore and investigate.

We have the opportunity to deepen our understanding.

We develop our Scientific vocabulary through school.

We understand Science is everywhere and can link it to our real life.

We can explore our findings and create solutions through investigation.
